

SWYSA & Positive Coaching Alliance

SWYSA clubs have come together to improve the culture in youth soccer and our communities. This 3 year investment is a commitment to build up our coaches, players and parents.

The first phase of improving our youth sports culture, SWYSA has set a goal for ALL our coaches to complete the Double Goal Coach course. As coaches, you set the tone and example for your teams, players and parents. Coaches are impactful to young athletes by providing guidance and support as they develop skills of sport and life. Having a role model to be there for the successes and failures, allows players to create those critical building blocks of confidence. Please consider in taking the time to invest in yourself as a coach/leader but also in the improvement of your teams and community.

Click here for a short video by Positive Coaching Alliance (PCA) about [The Power of Positive](#)
